Vladislav Zadorozhny

Data Analyst/Data Engineer

My motto in life is " precision and people can get you anywhere". I am strongly convinced that team work and the ability to listen to your team and yourself truly can bring anyone to success. The things that drives me further is a desire to make difference by bringing to the table the best of my abilities. I tend to take creative and new approach to the problems I am facing. Usually I incorporate my teammates opinions and view combined with my tendency to perfection to get the most optimal solution to task in hand

Speaking of my personal qualities, I am methodical and detailed oriented person. I strive for optimization of working process, so my team's time is spend as efficient as possible
